## Collinsvale Primary is registered for Children's University & Sporting Schools!

The **Children's University** project aims to raise aspirations, boost achievement and foster a love of learning, so that young people aged between 7 and 14 years can make the most of their abilities and interests.

Each child who participates is issued with a **Passport to Learning**. Passport stamps can be achieved by participating in activities on a school site outside the normal classroom program and by participation in after-school, weekend and holiday activities.

There is a strong emphasis on experience as a significant learning tool, acknowledging the value of the range of different learning experiences and environments in which children engage.

Please see the school office for further information and to obtain your child's **Passport to Learning**.

**Sporting Schools** offers students in primary schools from Prep to Year 6 access to sport based activities before, during and after school. Information is sent home early each term for registration for the program.
